Ref: ESEE/1010/2014

### Letter of Recommendation

Ethiopian Society of Electrical Engineers, ESEE for short, is a Professional Association registered by Federal Democratic Republic of Ethiopia Ministry of Justice under the Non- Governmental organization registration Code. ESEE is an organization that supports and facilitates all electrical engineering related professions and researches in Ethiopia.

Our mission is to promote and enhance the dissemination of knowledge and advancement of electrical science, engineering and technology for the benefit of the public. In order to reach to its wide spread member base, ESEE has contracted MAKE Enterprise for the upgrading of its website, develop relevant content, host and deliver long-term support.

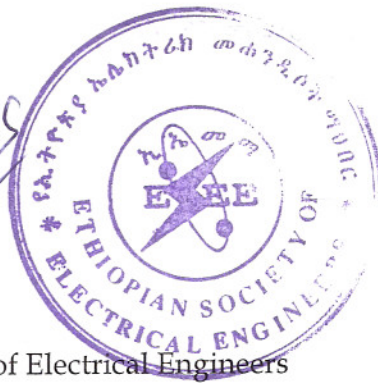

We would like to thank MAKE Enterprise for their professionalism, timeliness and delivery of our site <http://www.esee.org.et> above our expectation. Recently we are benefiting from the site by reaching our members, publishing blogs, doing online forums and so on.

Sincerely Yours,

AmenuTeferra

President,

Ethiopian Society of Electrical Engineers

ESEE embraces members from all Electrical Engineering streams such as Power, Information and Communication Technology, Computer, Micro-electronics, Control and Instrumentation etc.
